Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is a response to the amendment filed on 1/11/2006.

Claim Objections

1. Claims 3-6 are objected to under 37 CFR 1.75(c) as being in improper form because the claims 3-6 are depended by a cancelled claim 2. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 12 is rejected under 35 U.S.C. 102(e) as being anticipated by Uozumi et al. (US PAT. 6,046,887).

Uozumi et al. teach a process of forming a head gimbal assembly (10) comprising steps of: attaching a head/slider (31) having at least one termination pad (46) to an insulation layer of a flex circuit (40) having at least one electrical lead (32) to produce a head/slider circuited gimbal assembly having at least one static angle as shown in Fig. 6; electrically connecting the at least one termination pad of the

Art Unit: 3729

head/slider to the at least one electrical lead of the flex circuit; attaching the head/slider circuited gimbal assembly to a suspension (12) having at least one static angle as shown in Fig. 6; and determining the at least one static angle of the suspension prior to attach the head/slider circuited gimbal assembly to the suspension as shown in Fig. 4 (see also col. 3, line 47 to col. 5, line 33), wherein the flex circuit is composed of an electric conductive layer (42) covered by an electric insulating resin layers (41,43) as shown in Fig. 3.

Allowable Subject Matter

4. Claims 1, 7-11, 13 and 14 are allowed.
5. Claims 3-6 are objected to as being dependent upon a cancelled claim, but would be allowable if rewritten in proper dependent form.

Response to Arguments

6. Applicant's argument with respect to claim 12 has been considered but is moot in view of the new ground of rejection.
7. The prior art of record, Uozumi et al. teaches that the at least one static angle of the suspension is determined prior to attach the head/slider circuited gimbal assembly to the suspension as shown in Fig. 4.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3729

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

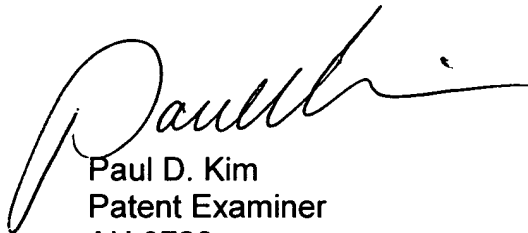

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
